

Cody Browning

Growth-focused using innovative leadership strategies, Cody Browning, leverages over 25 years of experience in the hospitality industry. As the chief operating officer of Supercharged Entertainment, Cody is responsible for all operations, finance, policy, and procedures. With the unique ability to advance operational process utilizing team development with “*Leadership Mindset*” being at the core of his stratagem, he advances strategies that continue to move the business forward. Cody relishes in the theory of never settling, but always propagating personal progress in himself and his team by proactively tackling challenges to grow and expand Supercharged as an industry leader of location-based entertainment (LBE).

Cody graduated from Brigham Young University with a bachelor’s in healthcare administration and began his professional career seeking to enter into the field of Healthcare, following years of working in the Restaurant Industry. Embracing the flexibility that became necessary to succeed in his current capacity, he course corrected his professional journey and entered the career field of LBE, opening at the time the fourth largest indoor entertainment center in America featuring a plethora of themed attractions including, at the time, a Guinness World Record holding play structure and the largest indoor ninja obstacle course in the USA. Having gone on to open four of the largest indoor entertainment centers in North America, Cody now finds himself at home leading the Supercharged Entertainment family based out of Edison, New Jersey.

His journey with Supercharged began in 2016 with the first location opening in Connecticut which featured the largest indoor multi-level karting track in the world which revolutionized the karting industry as a whole. With its success, Cody was instrumental in the opening of the second and third locations in Wrentham, MA (2019), and Edison, NJ (2022) respectively – with a fourth location planned to be opening in later 2025 alongside the opening of a new affiliate to the Supercharged family of LBE, *Albatross*, opening in early 2025.

Cody is a devoted husband and father, committing his time and energy to service within his religious observance and community. When not focused on his team’s growth and development, you may likely find him attending one of the theatre productions his daughters regularly participate in or enjoying a date night with his lovely wife.
