

## Janelle Fox

*Partner Solutions Engineer, Professional Services Group*

**INTUIT**

Janelle Fox, CMA is a finance and operations leader with over 20 years of experience advising and supporting businesses through growth, transformation, and operational modernization.

She currently serves as a Partner Solutions Engineer at Intuit, where she works closely with firm leadership to align technology, process, and strategy—helping firms scale client service, enhance advisory capabilities, and drive sustainable growth. In this role, Janelle partners directly with firms enabling them to maximize the value of Intuit’s ecosystem.

Prior to Intuit, Janelle held executive leadership roles, including Vice President of Finance & Operations for a nonprofit university, where she led enterprise-wide financial strategy, operational optimization, and change initiatives. She also served as a Senior Manager at a Top 40 public accounting firm, delivering advisory services across multiple industries and working directly with firm and client leadership.

Janelle brings a practitioner’s perspective, combining deep accounting expertise with hands-on operational and technology experience. She is known for translating complexity into actionable insight and serving as a trusted partner to executives navigating growth and transformation.
